SECOND INFORMATION DISCLOSURE STATEMENT

Sir:

The above-identified U.S. patent application corresponds to European Appl. No. 03 02 0491.1. A Search Report issued in connection with the European application on January 9, 2004. The European Searcher identified four references as being relevant. Those four references have been listed on the attached copy of Form PTO-1449. The Examiner will note that all four references relate to connectors intended for mounting to a panel and appear to provide at least some degree of float mounting of one connector relative to a mating connector. The Examiner is requested to consider these references during the examination and to make the references of record.

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to:
